BLM National Monuments - Planning Priorities List

12/11/17

Introduction

The BLM manages 27 National Monuments. Twelve have existing Resource Management Plans (RMP), 4 have RMP's that are in development, three have no RMP's, and eight have RMP's with amendments in process.

Background

Executive Order 13792, "Presidential Executive Order on the Review of Designations Under the Antiquities Act," dated April 26, 2017, (Order or EO 13792) directed the Secretary to conduct a review of certain Presidential designations made under the Act, to determine if the designations conformed to the policies set forth in the Order. The Order instructed that two reports summarizing the review be provided:

- a. an Interim Report within 45 days, addressing the Bears Ears National Monument established by Proclamation No. 9558, dated December 28, 2016, and "other such designations as the Secretary determines to be appropriate for inclusion"; and
- b. a Final Report within 120 days, summarizing the findings of the review for all other monument designations covered by the Order.

- The Interim Report was issued on June 10, 2017.
- On December 4th the President issued the Presidential Proclamation Modifying the Grand Staircase-Escalante National Monument and the Presidential Proclamation Modifying the Bears Ears National Monument.
 - The Proclamation Modifying the Grand Staircase-Escalante National modifies the boundaries of the 1.7 million acres of Federal lands to 3 units: the Grand Staircase, Kaiparowits, and Escalante Canyons units of the monument (1,003,863 acres).
 - The Proclamation Modifying the Bears Ears National Monument modifies the boundaries of the 1.35 million acres of Federal lands to 2 areas: the Shash Jáa area and the Indian Creek area; and excludes from its designation and reservation approximately 1,150,860 acres.
- On December 5th, in accordance with the Order, Secretary Zinke released a Final Report outlining the recommendations he made to the President on national monument designations under the Antiquities Act.
 - In the review the Secretary included DOI plans to undertake a review of existing monument management plans and update them to be consistent with public access, infrastructure, traditional use, tribal cultural use, and hunting and fishing rights.
 - In addition to the Bears Ears and Grand Staircase-Escalante National Monuments, the Final Report included recommendations to modify the boundaries and/or management of Cascade-Siskiyou, Gold Butte, Organ Mountains and Rio Grande del Norte National Monuments.

On September 15, 2017, Secretarial Order 3356 was issued which directs the BLM to “amend National Monument Management Plans to include or expand hunting, recreational shooting, and fishing opportunities to the extent practicable under the law.” The BLM is developing an action plan to identify recommendations to amend or develop National Monument Management Plans to expand opportunities; and to identify potential actions that would further enhance hunting, fishing, and recreational shooting opportunities within National Monuments.

Priority List

In order to respond to the recent Proclamations and recommendations from the Secretarial Reports with available resources, each of the 27 national monuments was prioritized high to low. The criteria for determining the priorities were based on the following:

Highest Priority: National Monuments designated by Presidential Proclamation and where Presidential actions following the 12/5/17 Secretarial Final Report have occurred.

High Priority: National Monuments designated by Presidential Proclamation, and where concerns have been identified in the Secretary’s December 5th Final Report, but where no Presidential action has occurred.

Medium Priority: National Monuments not identified in the Secretary’s December 5th Final Report, but identified as a high priority for increasing recreational access under S.O. 3356.

Low Priority: National Monuments not identified in the Secretary’s December 5th Final Report, or with no fishing, hunting or recreational shooting closures.

Based on the criteria, the following table shows the monuments in priority order, including the monument name, current planning status, the recommendations identified in the Secretarial Report, and a range of options to address the recommendations. The amending of proclamations and boundary revisions identified in the 09/05/17 Secretarial Report are outside the BLM’s authority.

Highest Priority						
1	Bears Ears, Utah	Monticello RMP, 2008.	NOI drafted	Develop management plan to protect objects, prioritize public access; infrastructure upgrades, repair, and maintenance; traditional use; tribal cultural use; and hunting and fishing rights.	(b) (5) DPP	
2	Grand Staircase-Escalante, Utah	GSENM MMP, 1999	NOI drafted Currently a NOA for the GSENM DRMP-A/DEIS (livestock grazing amendment) is also routing in DTS.	Decrease in actual cattle from restrictions, limited motorized vehicle use, areas in GSENM contain several billion tons of coal, only NM with no public input. Develop management plan to protect objects, prioritize public access; infrastructure upgrades, repair, and maintenance; traditional use; tribal cultural use; and hunting and fishing rights. High Priority						

3	Cascade - Siskiyou, Oregon	CSNM RMP, 2008 Soda Mountain Wilderness Stewardship Plan, 2012	The BLM is implementing the current plans.	Motorized transportation off roads prohibited in original designation. Expansion only allows for off roads in limited cases and after transportation management plan is completed. Plan not yet initiated. Due to poor maintenance, remaining usable roads are often unsuitable for use. Develop management plan to protect objects, prioritize public access; infrastructure upgrades, repair, and maintenance; traditional use; tribal cultural use; and hunting and fishing rights.
